Project Description

The CIMS has launched a consultation for a mission to set up an interactive and multimedia learning medium, on the application Management of computerized medical records and management of laboratories developed by the CIMS on a Moodle LMS platform.

SIT E-learning Solution’s first mission is to install and set up the latest version of the LMS educational platform, thus making the online courses available to learners via Internet, running discussion forums, and organizing course schedules...

SIT’s second mission is to develop two MOOCs through the pedagogical scripting, realization, and development of its contents, pedagogical scenarios, standardization, and to integrate them into the MOODLE platform.
